EDUCATION

Northeastern University

Master's in Informatics: Analytics Concentration; GPA: 4.00/4.00

Advisor: Carolyn Zuk

Massachusetts, USA

Sep 2023 - Present

Marmara University

Bachelor's in Computer Engineering; GPA: 3.04/4.00

Thesis: Early Diagnosis of Alzheimer's Disease with Artificial Intelligence

Advisor: Mustafa Agaoglu

Istanbul, Turkey

Jun 2020 - Sep 2022

PUBLICATIONS

Conference Publications

- C1.** C. Erdoğanılmaz, **B. Mengunogul** and M. Balci, "Unveiling the Black Box: Investigating the Interplay between AI Technologies, Explainability, and Legal Implications," 2023 8th International Conference on Computer Science and Engineering (UBMK), Burdur, Türkiye, 2023, pp. 569-574, doi: 10.1109/UBMK59864.2023.10286653.

Mengunogul**, "An Original Natural Language Processing Approach to Language Modeling in Turkish Legal Corpus: Improving Model Performance with Domain Classification by Using Recurrent Neural Networks," 2022 Innovations in Intelligent Systems and Applications Conference (ASYU), Antalya, Turkey, 2022, pp. 1-6, doi: 10.1109/ASYU56188.2022.9925363.

WORK EXPERIENCE

VeriUs Technology

Generative AI Engineer, Remote

Istanbul, Turkey

Aug 2023 - Present

- Working on providing customized Large Language Model assistants in Health Domain.

VeriUs Technology

Machine Learning Engineer

Istanbul, Turkey

Sep 2022 - Jul 2023

- Led a team of 5 interns, succeeded 98% accuracy by training BERT models for Name Entity Recognition task.
- Applied pretraining techniques and fine-tuned models for NER, Summarization, and Semantic Search tasks.
- Reduced the cost of training significantly by transitioning models from DataParallelism to ZeRO.
- Reduced the size of the Fasttext model by 37% by removing the negative vector matrix.
- Utilized MLFlow to reduce deployment time and manage 14 services more effectively.

Compact Mind

Machine Learning Intern, Remote

Austin, Texas, USA

Aug 2022 - Sep 2022

- Obtained knowledge about Curriculum Learning, Backtests, Meta-Strategy Paradigm, Copula Theory.
- Presented "System 1 and System 2 Thinking" approach to improve decision-making.
- Implemented tax-cutting mechanism in the algorithm's Environment Layer to simulate real-life conditions accurately.

Marmara University

Undergraduate Researcher, Supervisor: Assoc. Prof. Murat Can Ganiz

Istanbul, Turkey

Feb 2022 - Aug 2022

- Presented and Implemented a clustering approach for 271 crime types, resulting in 30 clusters.
- Conducted experiments on Multi-Class Classification and NER tasks using various machine learning models.
- Deployed Doccano, assisted and monitored the annotators, collected approximately 10,000 labeled documents.

Redzeplin UG*Software Engineer Intern***Berlin, Germany***Aug 2021 - Oct 2021*

- Learned about Web 3.0 and Blockchain Technology. Built decentralized applications (DApps) using Web3.js.
- Took a leading role in designing the system architecture that enables users to send cryptocurrencies as gifts.

Shelly Sleep*Full-Stack Developer, Remote***Berlin, Germany***Jun 2020 - Feb 2021*

- Applied database normalization techniques to reduce the redundancy and improve efficiency.
- Built a custom Swift-React-Native bridge library to overcome iOS restrictions.
- Learned React-Native independently, enabling the successful completion of the project after team members left.
- Published the app in Germany and Turkey. Reached over 10,000 registered users till October 2021.

HONORS AND AWARDS**CPS Leaders and Scholars Award***May 2023*

The recipient was selected by the committee in recognition of impressive academic and personal achievements, as well as the potential to leverage their degree to create a difference in the world. The award offers tuition scholarship funding, which will cover a portion of the total program tuition costs.

Best Paper Award Certificate 2nd Place*Sep, 2022*

The project “An Original Natural Language Processing Approach to Language Modeling in Turkish Legal Corpus: Improving Model Performance with Domain Classification by Using Recurrent Neural Networks” has been awarded Best Paper Award 2nd Place at Innovations in Intelligent Systems and Applications Conference (ASYU 2022) September 7-9, 2022, Antalya, TURKEY.

Honor Student*Sep, 2022*

Graduated as honor student from Marmara University.

BlockFellow Hackathon 2019*Feb, 2019*

Developed a supply chain tracking system with blockchain technology. The project selected in top 10 among hundreds of projects from 15 Universities at first blockchain hackathon in Turkey.

GRANTS**Erasmus+***Aug 2021*

By the European Commission, a grant was awarded to undertake an internship in Germany, where practical experience was gained and language and cultural skills were improved.

PORTFOLIO OF MOST RELEVANT PROJECTS**Marmara University****Istanbul, Turkey***Projects**Jun 2020 - Jul 2022*

- **Early Diagnosis of Alzheimer’s Disease:** Conducted research on Alzheimer’s Disease to diagnose its early stage from MRI data with CNNs. Finetuned a ResNet model with MRI data of patients from ADNI, OASIS3 datasets.
- **Tracking and Counting Number of Passing Vehicles At A Highway:** Implemented BLOB Detection and trained YOLOv5 with vehicle images then compared the performance on a short footage from surveillance camera.
- **Grid World:** Implemented Q-Learning and Prioritized Sweeping Algorithm to solve a self-made grid world puzzle and analyzed the results with different parameters.

TECHNICAL SKILLS

Programming Languages/Tools	Python, PyTorch, PyTorch Lightning, TensorFlow, Keras, Pandas, Numpy, Scikit, OpenCV, Matplotlib, Plotly, DeepSpeed, Docker, Flask, SQL, C/C++, JavaScript, React-Native, REST API, Telerik Fiddler, Git, L ^A T _E X
Skills	Machine Learning, Deep Learning, Reinforcement Learning, NLP, Computer Vision, RNN, LSTM, Transformer, GAN, Distributed Training

LANGUAGE PROFICIENCIES

Turkish	Native
English	Full Proficiency, TOEFL 96 Points
